Have a N.I.C.E. Day or just NICE for short is a racing game where you can start a career as a racing driver similar to [NFSU](#) and pace around with different tuned cars. Small but subtle difference: In this game you'll also find such nice accessories as machine guns, mines, or tire slashers.

Installation

I haven't found a patch or crack yet, so you have to play the game from CD. Installation works with the original installer under Windows 10.

Multiplayer

Multiplayer works under Windows 10 with DirectPlay. Host's IP is required to know for the clients.
