

EF 1 Cheats

EF 1 features a single-player campaign, which also allows for the use of certain cheat codes. These cheats work *only* in single player (no, not even if you only add bots in multiplayer). If you enter them in the multiplayer, they go out as chat messages, which probably causes corresponding reactions by the other players... The cheats can only be used if you activate them. Either you already have `sv_cheats 1` in your single player config, or you enter it into the console. Then the following codes will work:

Cheat list

Cheat	Effect
give #	Give item with number # (see list)
give weapons	All weapons available
give health #	Sets health to the value # (1-200)
give armor #	Sets the armor to the value # (0-200)
give weaponnum #	Gives the weapon with the number # (see list)
name #	Set your own Nick to "#"
model #	Set your own model to "#"
setviewpos X Y Z (R)	Sets you at position X,Y,Z, with the rotation angle R

27	Paladin weapon
28	All

Walk Through

At this point, a whole walk through of this game would require an entire article by itself. There are still some websites serving WT's so for now I limit myself to some sources:
