

Armada 1 Assault Ship

The game *Star Trek: Armada* has two kinds of ships, that can be considered as assault ships:

Depiction	Name
	SuQ'jagh
	Cube

While being definitely also a [heavy cruiser](#), the fact that it's [special weapon](#), the [Commando Team](#) aims more at capturing other units and vessels makes the [SuQ'jagh](#) more an assault ship. Same goes for the [Cube](#). It's [Holding Beam](#) is definitely meant for taking over opposing structures. Still it is also the most powerful [battleship](#).
