

Armada 1 Death Chant

The Death Chant special weapon of the game [Star Trek: Armada](#) increases battle efficiency of friendly ships in the vicinity of the casting ship. It is researched at the [Gre'thor Armory](#). It is depicted in this fashion:

Property	Value
Range	300
Build Time	140 s
Supply Cost	10 (4.3/min)
Dilithium Cost	650 (4.6/s)
Special Energy Cost	800
Duration	15 s

It affects all friendly ships and stations within its radius, having the following effects on them:

- Firing rate increased by 50% and
- repair rate is decreased by 50%.

The increased firing rate value affects the [Mining Beam](#), increasing the output rate bis 50%. When having less than 3 [freighters](#) at a [Dilithium Moon](#), this may boost income rate. If you already have 3 or more freighters at one moon, there is little point in using this method, as the processing speed of [mining stations](#) is not increased, making them the bottle neck.
