

Armada 1 Nebula

The *Nebula* type ship of the game Star Trek Armada is the Federation's [caster](#), built by the [Advanced Shipyard](#). As such it is slowly moving, has little fire power and low shield energy. It makes up for these shortcomings with its four special weapons. The [Shield Disruptor](#) is particularly dangerous, as it effectively reduces opponents ships health to almost zero for a short time. The [Point Defence Laser](#) and [Federation Repair Team](#) are more of a supportive function. The latter can be very valuable for restoring defenses after repelling an attack. [Gemini Effect](#) may allow for rouse-like tactics of information gathering. When you see this ship being deployed, don't underestimate it one bit! It may be expensive but it is worth its money.
